Organizing Committee of The Symposium on Ring Theory and Representation Theory

The Symposium on Ring Theory and Representation Theory has been held annually in Japan and the Proceedings have been published by the organizing committee. The first Symposium was organized in 1968 by H. Tominaga, H. Tachikawa, M. Harada and S. Endo. After their retirement a new committee has been set up in 1997 to manage the Symposium, and its committee members are listed in the web page

<http://fuji.cec.yamanashi.ac.jp/~ring/h-of-ringsymp.html>.

The present members of the committee are H. Asashiba (Shizuoka Univ.), N. Nishinaka (Univ. of Hyogo), S. Kawata (Nagoya City Univ.) and I. Kikumasa (Yamaguchi Univ.).

The Proceedings of each Symposium are edited by the program organizer. If you wish to have these Proceedings, please ask the program organizer of each Symposium or one of the committee members.

The Symposium in 2017 will be held at Yamanashi University from October 7 (Sat) to October 10 (Tue). The program organizer is K. Sanada (Science Univ. of Tokyo).

For information on ring theory and representation theory of groups and algebras (including schedules of meetings and symposiums), as well as ring mailing list service for registered members, please refer to the following websites, which are arranged by K. Yamaura and H. Miyahara (Yamanashi Univ.):

Contents

Preface	vii
Program (Japanese)	viii
Program (English)	xii
<i>t</i> -structures and silting objects	
Takahide Adachi	1
Bricks and 2-term simple-minded collections	
Sota Asai	5
Derived equivalences and smash products	
Hideto Asashiba	12
On representation-finite gendo-symmetric biserial algebras	
Aaron Chan and René Marczinzik	18
Introduction to algebras of partial triangulations	
Laurent Demonet	23
On the relations for Grothendieck groups of Cohen-Macaulay modules over Gorenstein rings	
Naoya Hiramatsu	28
Persistent homology and Auslander-Reiten theory	
Yasuaki Hiraoka	31
3-dimensional quadratic Artin-Schelter regular algebras and superpotentials	
Ayako Itaba	36
On the Hochschild (co)homology of a monomial algebra given by a cyclic quiver and two zero-relations	
Tomohiro Itagaki	42
On modules of infinite reduced grade	
Mitsuo Hoshino, Noritsugu Kameyama and Hirotaka Koga	49
Extension groups between atoms and classification of localizing subcategories	
Ryo Kanda	52

Algebras sharing the same poset of support τ -tilting modules Takuma Aihara and Ryoichi Kase	57
Tilting and cluster tilting associated with reduced expressions in Coxeter groups Yuta Kimura	61
Weighted projective lines and Riemann surfaces Helmut Lenzing	67
Classifying dense subcategories of exact categories via Grothendieck groups Hiroki Matsui	80
Ringel duality and Recollements Hiroyuki Minamoto	86
m -Koszul AS-regular Algebras and Twisted Superpotentials Izuru Mori	92
Introduction to quiver varieties — For ring and representation theorists Hiraku Nakajima	96
Mutations of splitting maximal modifying modules arising from dimer models Yusuke Nakajima	115
Local duality principle and Grothendieck’s vanishing theorem Tsutomu Nakamura	123
Wall-crossing between stable and co-stable ADHM data Ryo Ohkawa	127
On Loewy lengths of centers of blocks Yoshihiro Otokita	131
The structure of the Sally modules of integrally closed ideals Kazuho Ozeki	135
A generalization of dual symmetry and reciprocity for symmetric algebras Taro Sakurai	143
Representations of small categories and Grothendieck derivators Jan Stovicek	147

3-dimensional cubic Calabi-Yau algebras and superpotentials	
Kenta Ueyama	155
Decomposition theory of modules The case of Kronecker algebra	
Hideto Asashiba, Ken Nakashima and Michio Yoshiwaki	161
On mutation of τ -tilting modules	
Yingying Zhang	169

Preface

The 49th Symposium on Ring Theory and Representation Theory was held at Osaka Prefecture University on August 31st – September 3rd, 2016. The symposium and this proceedings are financially supported by

Hideto Asashiba (Shizuoka University)

Grant-in-Aid for Scientific Research (B), No. 25287001, JSPS,

Osamu Iyama (Nagoya University)

Grant-in-Aid for Scientific Research (B), No. 16H03923, JSPS,

Kiriko Kato (Osaka Prefecture University)

Grant-in-Aid for Scientific Research (C), No. 26400052, JSPS.

Tsunekazu Nishinaka (University of Hyogo)

Grant-in-Aid for Scientific Research (C), No. 26400055, JSPS,

This volume consists of the articles presented at the symposium. We would like to thank all speakers and coauthors for their contributions.

We would also like to express our thanks to all the members of the organizing committee and Professor Masahisa Sato for their helpful suggestions concerning the symposium. Finally we would like to express our gratitude to Professor Kiriko Kato and students of Osaka Prefecture University who contributed in the organization of the symposium.
